01 INTRODUCTION

Magic Mittens: A Community Token

Magic Mittens is based on a meme coin following the Bernie Sanders meme mittens from the presidential polling tradition. These mittens, which went viral on social media platforms, epitomize solidarity, originality, and laughter. As thousands of people share the Magic Mittens, this is the right time to unleash this popularity and bring a new token that will evoke the love for Sanders combined with feelings of togetherness among people into meme culture.

Vision

Our vision is to design a token that represents unity and a real sense of belonging while having a positive impact on the community. Magic Mittens actually seeks to foster an active community that is passionate and constructive in nature and tone.

02

Magic Mittens: The Concept

The fact that Magic Mitten's crypto was made shows how internet culture can bring people together. By making a symbol out of this common interest, we hope to build a community that shares this interest in a fun and meaningful way while also supporting the values that Sanders and his mittens stand for.

Our goal is to make a gift that, in addition to being a sign of togetherness and trustworthiness, also does useful things for the community.

03 Tokenomics

Magic Mittens is hyper deflationary and has a total supply of 3,000,000,000 tokens. In addition, a 30% burn will be completed by the end of the first week. post launch.

Here are the key aspects of our tokenomics:

- a. Deflationary Mechanism: For every transaction, 1% goes to burning the coins, reducing the total number of tokens and, hence, making them more valuable.
- b. Redistribution: Some cause of every sale is given back to all stakeholders in the form of rewards in order to encourage them to take part in the network.

Staking and Rewards

To encourage people to finally partake in the community and give back to it, Magic Mittens offers staking rewards. Such a passive income increases the worth of the staking tokens held by the users since they receive payments without even directly trading. The rewards for staking are proportional to the amount of MMTN tokens staked, so there is no need to flip the assets often, and it adds to the stability.

Having their tokens staked, the Magic Mittens collectors can obtain a passive income and help secure the network at the same time. Another nice touch is that for incentives, a meaningful 15% of the total tokens is allocated to staking to encourage the community.

Phase 1:

Foundation

- Launch official website
- Establish a social media presence
- Conduct smart contract audit
- KYC & SAFU Audits
- Doxx Team + Total Supply Distribution Wallet Address.

Phase 2:

Deployment

- Develop a Play-to-Earn game
- Develop staking engine
- Release Magic Mittens Token (Pre-sale)
- Develop branded merchandise
- Conduct Initial Token Burn
- Burn 10% Of Burn Wallet

Phase 3:

Expansion

- Secure listings on CoinMarketCap and CoinGecko (ETA-MARCH)
- Bridge \$MMTN with TON Network (ETA – APRIL)
- Bridge \$MMTN with BASE Network (ETA – APRIL)
- Bridge \$MMTN with ETH Network (ETA – APRIL)

Phase 4 :

Brand Awareness

- Collaborate with influencers to enhance visibility (ETA – February)
- Host promotions and giveaways (ETA – January)

Phase 5 :

Growth

- Pursue additional CEX listings (ETA – APRIL)
- Expand influencer marketing efforts (ETA – March)

06 Transparency and Security

This resource states that transparency and security should empower its community to see everything that happens in the organization and the decision-making processes that go with it. Most records are made on the blockchain, and all these transactions can be audited easily. Also, we guarantee constant updates and, moreover, active reporting to the community where all the holders will be able to participate.

Transparency is a concern held in high esteem by Magic Mittens.

07 Conclusion

**Magic Mittens
is not just a**

TOKEN

it is a community

Magic Mittens Crypto differs from other blockchain projects since it seeks not only to expand the application of (blockchain technology) but also to bring people together, create genuine products, and apply humor when possible. Based on strong tokenomics, favorable staking choices, and genuine dedication to openness and security, Magic Mittens is prepared for a large strike in the near area.

Therefore, the goal is to construct a token that makes this happen, to give people a purpose and belonging by linking them to something with a very high potential for life-changing money.

**WELCOME TO THIS JOURNEY OF
REINVENTING THE FEATURES OF A
COMMUNITY TOKEN.**
